

The trains of Mumbai carry three times their weight during peak hours. These packed conditions are officially known as Super Dense Crush Load.

YRoNS 2019@Amity

An International Symposium Of Science & Culture

Team YRoNS from India at the opening ceremony of YRoNS at AIS Amsterdam

Delegates from Amity with the Mayor of Amstelveen

YRoNS Fact Sheet

What: 12th YRoNS (Young Researchers in Natural Science)
Where: Amity International School, Amstelveen, Amsterdam
When: April 9-11, 2019
Who: 7 nations (46 students) including Hungary, Netherlands, France, Germany, Norway, Slovenia and India
Theme: World of colours-the function, sensation, utilisation of pigments and dyes in natural sciences

Projects from India

- Sustainable development through fertile newspaper printed with natural ink by Vivaan Taneja (X) & Ananya Agrawal (IX) AIS Saket and Nalin Jayaswal (IX) AIS Pushp Vihar
- Assessing plant growth under artificial light of different colours by Sreemoyee Chatterjee (IX) & Henaysha Chhabra (VIII) AIS Noida
- Chromatography in forensic science by Krish Talwar & Shivain Gupta (IX) AIS Noida, Mrinal Sharma (XI) AIS MV and Vedant Swain (XI) AIS Gur-46

AERC

Amity International School, Amstelveen, Amsterdam, the youngest school abroad in the chain of Amity Group of Schools, proudly hosted the 12th YRoNS (Young Researchers in Natural Science) from April 9-11, 2019. Budding scientists from around the globe, observed the world of colours through the prism of science, exploring the chemistry of colours and understanding physics of light both of which together make the life on

this planet happen.

The conference hosted by Amity Group of Schools for the third time was organised under the aegis of Amity Educational Resource Centre (AERC), an initiative of Dr (Mrs) Amita Chauhan, Chairperson, Amity Group of Schools & RBEF to provide world class opportunities to learn and grow. Nine Amityans from Amity Group of Schools took part in the symposium. Before leaving for Amsterdam the Indian team sought the blessings of Chairperson and also met the Ambassador of Netherlands

in India, HE Marten van der Berg. They interacted with him and discussed about Indo Dutch relationship. On April 9, 2019 YRoNS opened to a grand ceremony with Jolanda van der Aart, senior manager, Indo Dutch Business Relations as the chief guest and Jane van Kampen Zoutendijk, head, Economic Affairs, Amstelveen as the keynote speaker. School principal David Porritt, AIS Amstelveen extended a warm welcome to all the participating delegates. The opening ceremony was followed by project presentations

and sharing of innovative ideas. A total of 18 projects on topics ranging from natural dyeing substances and their impact on the taste of food by the team from Germany to colourful waste management by the team from Norway were presented by the teams. The though provoking project presentation concluded with all the student delegates and faculty members being felicitated with medals and certificates. To make the conference more interesting, an open house conversation with the Mayor of Amstelveen, HE Bas Eenhoorn at

the City Hall and an international cultural festival was organised. During the festival, students from different nations spoke about their culture and cuisines. The highlight was Polka dance by Slovenian team, mellifluous songs presentation by French team and a foot tapping dance number by Henaysha from Indian delegation. During the three day sojourn, the delegates took a canal cruise to the city, visited places such as Miropia, Artis Zoo, Nemo Science

museum, Keukenhof, Maudrodam and the Goat Farm. The journey concluded with delegates visiting The Hague and meeting Indian Ambassador HE Venu Rajamony at the Indian Embassy in Netherlands. The conference not only gave the participants a platform to showcase scientific minds but also made them interact with people from myriad cultures, learn to respect diversities and nurturing them to become global responsible citizens. 🇮🇳

Cyberfestival For Every IT Wizard

AIS Mayur Vihar

Young IT enthusiasts participate in Cybercon

Metaverse, the 'Cyber Society' of the school organised its 5th cyberfest titled 'Cybercon' on August 1, 2019. More than 180 young IT wizards participated in a total of nine closely contested competitions which required good knowledge of skills like web designing, virtual gaming, photography, etc. The competition began with lamp lighting ceremony by school principal Meenu Kanwar followed by a video introduction of the 'Greatest IT Cyberfest - Cybercon' by Metaverse. As the

google personal assistant Alexa announced the names of the organising team members, the Metaverse team stood smartly on stage all set to launch the event. Various competitions held in cybercon included Tempus (HTML), OnePlusZero (Programming), Surpr!se event, InQUIZitive (Quiz), Design Protocol (PPT), Junior events (Scratch, Logo, Tux Paint, Photoshop) and Kodachrome (Photography). The fest saw a plethora of cyber events for students to showcase their IT skills. 🇮🇳

A day at university

Students Visit AUMP To Explore Horizons

AIS Gwalior

A visit to Amity University Madhya Pradesh (AUMP) was held for 107 students of Class VI-X from August 1-2, 2019 with an objective to introduce them to the resources and study opportunities available at the university. On the first day of the visit, students were shown around the chemistry, biotechnology and physics labs. The visit ignited curiosity and gave students an opportunity to conduct experiments and understand the working principles of concepts and tools like tissue cultures, microscopes, radio
